

# The Mews Performance 2016

---

The chart above shows that during 2016, eight people were discharged from The Mews. Three people (37.5%) moved into their own homes with some care provision, three people (37.5%) moved into long term residential care for the elderly and two people moved to alternative rehabilitation facilities.

This means that 75% of service users who were discharged from The Mews in 2016 moved on to less intensive care provision.
